

# Process Questionnaire – Agitator

**Data on page 1:** Required for rating/  
optimizing a new/existing mixing  
system

**Data on page 2:** Additionally required  
if you want us to calculate your heat  
exchange

Company: \_\_\_\_\_  
Name: \_\_\_\_\_  
Department: \_\_\_\_\_  
Telephone: \_\_\_\_\_  
Mobile phone: \_\_\_\_\_  
E-mail address: \_\_\_\_\_  
Your query/order: \_\_\_\_\_  
Thaletec offer/order no.: \_\_\_\_\_

## Mixing task

(please check, multiple answers possible, please mark dominant mixing task)

Suspension (solid/liquid)	_____	Suspension (crystallization)	_____
Homogenization (liquid/liquid)	_____	Gas quantity to be dispersed	_____ [m <sup>3</sup> /h]
Dispersion (liquid/gaseous)	_____	Residual quantity to be mixed	_____ [liters]
Mixing residuals	_____	Multipurpose	_____ [yes/no]
Heat exchange	_____		

## Product properties

(please check, multiple answers possible, please mark dominant mixing task)

foaming	_____	goes lumpy	_____
abrasive	_____	sticky	_____
sensitive to shearing	_____	viscous structure	_____
Newtonian (flow behavior)	_____		

## Product data

Viscosity	_____ [mPas]	Solids density	_____ [kg/m <sup>3</sup> ]
Liquid density	_____ [kg/m <sup>3</sup> ]	Particle size	_____ [µm]
Density of mixture (for solids)	_____ [kg/m <sup>3</sup> ]	Solids quantity	_____ [kg]
Service temperature	_____ [°C]	Mass proportion of solids	_____ [%]
Service pressure	_____ [bar abs]	Solids consistency	_____ [soft, hard]
Volume to be mixed »1«	_____ [liters]	Volume to be mixed »2«	_____ [liters]

## Reactor data

Reactor type (e.g. AE, BE, CE, ...)	_____ [-]	Design to DIN28136 Part 3	_____ [Yes/no]
Nominal volume	_____ [liters]	Shape of lower head (e.g. dished head)	_____
Inner vessel diameter	_____ [mm]	Elevation above ground	_____ [mm]
Manhole size	_____ [mm]	Half-pipe coil	_____ [yes/no]
Mounting hole diameter	_____ [mm]	Double jacket	_____ [yes/no]
		PowerBaffle	_____ [yes/no]

## Existing/desired Agitator

(we are happy to advise you!)

Agitator speed	_____ [rpm]	Agitator direction of rotation	_____ [cw, ccw]
Single-impeller agitator	_____ [yes/no]	Multi-impeller agitators	_____ [yes/no]
Impeller diameter, lower level	_____ [mm]	Impeller type, lower level	_____
Impeller diameter, interm. level:	_____ [mm]	Impeller type, interm. level	_____
Impeller diameter, upper level:	_____ [mm]	Impeller type, upper level	_____
Number of baffles	_____ [pieces]	Baffle type	_____
Baffle connection nozzle	_____ [DN]	Baffle length	_____ [mm]

Drawings and/or process description are quite helpful for rating your system. Please send this information together with the completed questionnaire, if available. Thank you very much for your cooperation!

Please fill in the questionnaire and send it to: [process@thaletec.com](mailto:process@thaletec.com)

# Process Questionnaire – Heat transfer

**Data on page 1:** Required for rating/  
optimizing a new/existing mixing  
system

**Data on page 2:** Additionally  
required if you want us to calculate  
your heat exchange

## Product data

Thermal conductivity	<input type="text"/>	[W/mK]
Specific thermal capacity	<input type="text"/>	[kJ/kgK]
Reactor filling level when heating	<input type="text"/>	[liters]
Filling level when cooling	<input type="text"/>	[liters]
Specific evaporation enthalpy	<input type="text"/>	[kJ/kg]

## Process requirements

### for heating

Thermal quantity to be transferred	<input type="text"/>	[kW]
Initial product temperature	<input type="text"/>	[°C]
Final product temperature	<input type="text"/>	[°C]
Desired heating time	<input type="text"/>	[min]
Current heating time	<input type="text"/>	[min]
Exhaust vapour	<input type="text"/>	[kg/h]

### for cooling

Thermal quantity to be transferred	<input type="text"/>	[kW]
Initial product temperature	<input type="text"/>	[°C]
Final product temperature	<input type="text"/>	[°C]
Desired cooling time	<input type="text"/>	[min]
Current cooling time	<input type="text"/>	[min]
Heat of reaction	<input type="text"/>	[kW]

## Double jacket data

Double jacket w/o jacket division	<input type="text"/>	[yes/no]
Use of agitating nozzles	<input type="text"/>	[yes/no]

## PowerBaffle data

Nominal size	<input type="text"/>	[DN]
Quantity	<input type="text"/>	[pieces]
Interconnection to jacket/Half-pipe	<input type="text"/>	[parallel/seriell]
Nominal size (Service)	<input type="text"/>	[DN]

## Half-pipe coil data

Half-pipe coil subdivided into:	<input type="text"/>	[zones]
Number of heating zones	<input type="text"/>	[pieces]
1-section half-pipe coil	<input type="text"/>	[yes/no]
2-section half-pipe coil	<input type="text"/>	[yes/no]
Number of heating sections	<input type="text"/>	[pieces]

Exchanger surface per zone	<input type="text"/>	[m <sup>2</sup> ]
Number of cooling zones	<input type="text"/>	[pieces]
Exchanger surface	<input type="text"/>	[m <sup>2</sup> ]
Exchanger surface per section	<input type="text"/>	[m <sup>2</sup> ]
Number of cooling sections	<input type="text"/>	[pieces]

## Heating using steam (not for PowerBaffle)

Steam pressure	<input type="text"/>	[bar abs]
Steam temperature	<input type="text"/>	[°C]

Steam quantity available	<input type="text"/>	[kg/h]
--------------------------	----------------------	--------

## Heating using other media

Name of heating fluid	<input type="text"/>	
Viscosity	<input type="text"/>	[mPas]
Density	<input type="text"/>	[kg/m <sup>3</sup> ]
Inlet temperature	<input type="text"/>	[°C]
Evaporation enthalpy	<input type="text"/>	[kJ/Kg]

Quantity available	<input type="text"/>	[m <sup>3</sup> /h]
Thermal conductivity	<input type="text"/>	[W/mK]
Specific thermal capacity	<input type="text"/>	[kJ/kgK]
Outlet temperature	<input type="text"/>	[°C]

## Cooling using media

Name of cooling fluid	<input type="text"/>	
Viscosity	<input type="text"/>	[mPas]
Density	<input type="text"/>	[kg/m <sup>3</sup> ]
Inlet temperature	<input type="text"/>	[°C]

Quantity available	<input type="text"/>	[m <sup>3</sup> /h]
Thermal conductivity	<input type="text"/>	[W/mK]
Specific thermal capacity	<input type="text"/>	[kJ/kgK]
max. outlet temperature	<input type="text"/>	[°C]

## Process description:

Drawings and/or process description are quite helpful for rating your system. Please send this information together with the completed questionnaire, if available. Thank you very much for your cooperation!  
Please fill in the questionnaire and send it to: [process@thaletec.com](mailto:process@thaletec.com)
